

Homes Long Ago Activity Sheet

Use this activity sheet to discover more about the objects used **Below Stairs**, and discover just how many of them are things we still have in our houses today!

For this activity you will need to look in the following rooms:

- The Old Kitchen
- The Pastry Room
- The Vegetable Scullery
- The Still Room

Most of the objects you will find in these rooms are from the **Victorian times** (1837-1901) but a lot of them are almost exactly the same as the things that we use in our own kitchens today.

1. Looking around Below Stairs, can you find **four** objects that you would also have in your own home?

Write them below:

i) _____

ii) _____

iii) _____

iv) _____

2. Which is your favourite of these four objects? See if you can answer the following questions about it:

a) What is the name of this object?

b) What would you use it for?

c) Which room at Harewood did you find it in?

d) Where would you find this object in your home?

3. Draw a picture of the object below, so you can remember what it looked like.

When you get home, why not **compare** your drawing to the same object that you have in your own house.
