

Illiger's macaw

Primolius maracana

- + This bird is also known as the blue winged macaw
- + We've had great success breeding this species and have sent young birds all the way to Singapore!
- + Our adult male was originally seized by UK Customs. It is possible he was illegally poached and smuggled from South America

Bird Wow Factor:	231

Chilean flamingo

Phoenicopterus chilensis

- + Flamingos are very recognisable by their bright pink colouring and elegant features
- + They feed with their bills upside-down, tipping their head into the water to filter food
- + Some of the Harewood flamingos have been in residence since the Bird Garden opened in 1970!
